Core Program 8 Units ⁷

Name 1.

International Strategic Management

Credits: 6

Mode of study: Online

Objectives and/or competences acquired by the student:

LO1: Understand the foundations for developing organisational strategy

Examine the core concepts, frameworks, and analytical tools essential for building robust strategies that align with an organisation's mission, vision, and goals.

LO2: Review an organisation's strategy and business plans

Analyse and evaluate existing strategies and business plans to identify strengths, weaknesses, and opportunities for improvement in achieving sustainable competitive advantage.

LO3: Develop strategy options for an organisation

Design and propose actionable strategic options that drive growth, innovation, and long-term value creation, tailored to meet an organisation's unique challenges and opportunities.

Brief description of the contents:

This unit provides an in-depth exploration of the principles and practices that underpin effective international organizational strategies through all phases of international strategies development and formation.

Core Program 8 Units ⁷

Name 2.

Global Human Resources Management

Credits: 6

Mode of study: Online

Objectives and/or competences acquired by the student:

LO1: Understand the factors affecting human resource management strategies in organisations

Analyse internal and external influences, including labor market dynamics, regulatory frameworks, organizational culture, and technological advancements.

LO2: Understand how human resource management contributes to the achievement of the strategic plans of organisations

Evaluate how HRM practices such as recruitment, training, performance management, and employee engagement drive the success of organizational objectives.

LO3: Understand how to prepare human resource management strategies for organisations

Develop comprehensive HRM strategies that align with an organization's strategic goals, considering factors like workforce planning, diversity, and succession planning.

Brief description of the contents:

This unit explores the strategic role of human resource management (HRM) in aligning organizational objectives with workforce planning, performance management, and employee development to achieve sustainable business success.

Core Program 8 Units 7

Name 3.

Finance for Strategic Managers

Credits: 6

Mode of study: Online

Objectives and/or competences acquired by the student:

LO1: Understand the importance of financial data in formulating and delivering business strategy

Explore how financial statements, budgets, and forecasts provide essential insights for setting and achieving strategic goals.

LO2: Use financial analysis as a tool for strategic decision-making

Apply techniques like ratio analysis, cost-benefit analysis, and trend analysis to evaluate business performance and guide strategic decisions.

LO3: Evaluate proposals for strategic capital expenditure in an organisation

Assess investment opportunities using methods such as Net Present Value (NPV), Internal Rate of Return (IRR), and Payback Period to ensure alignment with the organization's financial goals.

Brief description of the contents:

This unit examines the pivotal role of financial data in strategic management, focusing on its use in decision-making and long-term organizational growth. Learners will develop the ability to interpret and analyse financial information, evaluate capital expenditure proposals, and leverage financial insights to align with business strategies.

Core Program 8 Units 7

Name 4.

Personal Development for Strategic Leadership

Credits: 6

Mode of study: Online

Objectives and/or competences acquired by the student:

LO1: Understand how knowledge and skills in leadership and strategic management support the creation and achievement of organisational vision and strategy

Explore how effective leadership and strategic management frameworks drive the formulation, implementation, and alignment of an organisation's vision and goals.

LO2: Understand how to develop and communicate organisational vision

Learn to craft compelling organizational visions and utilize effective communication strategies to align stakeholders and inspire action.

LO3: Manage development of own knowledge and skills in leadership and strategic management to support achievement of personal and organisational vision and strategy

Build a personal development plan to enhance leadership competencies and strategic thinking capabilities, aligning them with personal and organizational goals.

Brief description of the contents:

This unit focuses on enhancing knowledge, skills, and personal development in leadership and strategic management. It emphasizes creating and communicating a clear organizational vision, managing personal growth, and contributing to the achievement of organizational strategies.

Core Program 8 Units 7

Name 5.

International Strategic Marketing

Credits: 6

Mode of study: Online

Objectives and/or competences acquired by the student:

LO1: Understand the principles of strategic marketing

Explore the frameworks and theories of strategic marketing, focusing on aligning marketing objectives with organizational goals and competitive positioning.

LO2: Understand the role of international consumer behaviour in marketing strategies.

Analyze how consumer behavior influences decision-making and the design of marketing strategies, with an emphasis on segmentation, targeting, and positioning.

LO3: Develop a strategic marketing plan

Apply strategic marketing tools to design comprehensive marketing plans, integrating market research, branding, pricing, and promotional strategies to achieve business objectives.

Brief description of the contents:

This unit examines the principles and strategies that underpin successful international marketing practices, emphasizing the critical role of consumer behaviour and the development of actionable, goal-driven marketing plans.

Core Program 8 Units 7

Name 6.

Organizational Behaviour

Credits: 6

Mode of study: Online

Objectives and/or competences acquired by the student:

LO1: Understand leadership behaviour theory and practice

Study key leadership theories, styles, and practices, analysing their impact on organizational performance and decision-making.

LO2: Understand how organisational structures and culture impact on the effectiveness of an organisation

evaluate the relationship between organizational design, culture, and efficiency, focusing on how these elements influence adaptability and performance.

LO3: Understand how organisations can improve employee motivation and effectiveness

Explore theories of motivation and practical approaches to fostering engagement, productivity, and satisfaction in the workplace.

Brief description of the contents:

This unit explores the dynamics of organizational behaviour, organizational structure, and workplace culture to understand how they affect organizational effectiveness. It also examines strategies to enhance employee motivation and overall performance.

Core Program 8 Units 7

Name 7.

Managing Continuous Improvement

Credits: 6

Mode of study: Online

Objectives and/or competences acquired by the student:

LO1: Understand how organisations create a culture of continuous improvement and acceptance of change

Explore strategies to promote a mindset of ongoing learning, innovation, and adaptability within teams and across organizations

LO2: Understand opportunities for improvement to organisational activities

Identify and assess areas for improvement in processes, systems, and practices to enhance efficiency, quality, and competitiveness.

LO3: Plan change for organisational improvement

Develop actionable change management plans that align with organizational goals and ensure smooth implementation of improvements.

Brief description of the contents:

This unit focuses on the principles and practices that enable organizations to foster a culture of continuous improvement and effectively manage change. Learners will explore how to identify opportunities for improvement and develop plans for organizational enhancement.

Core Program 8 Units 7

Name 8.

Global Business Research Methodology

Credits: 6

Mode of study: Online

Objectives and/or competences acquired by the student:

LO1: Produce a research proposal relating to strategic business development

Learn to identify key business challenges and opportunities, define research objectives, and craft a clear and actionable research proposal.

LO2: Apply different research methodologies to gather sufficient and valid data

Understand and utilize quantitative and qualitative research methods to collect reliable, relevant, and valid data for strategic insights.

LO3: Present research findings in an appropriate format for a target audience

Develop the skills to analyze and synthesize research data into a professional format suitable for stakeholders, incorporating clarity, precision, and actionable recommendations

Brief description of the contents:

This unit focuses on equipping learners with the skills to design, conduct, and present research that informs strategic business decisions. It emphasizes creating effective research proposals, applying appropriate methodologies, and delivering findings tailored to specific audiences.

Core Program 8 Units

Masters Dissertation

Credits: 12

Mode of study: Online

Formative Assessment

Lecturers will adapt their lesson to the needs of their students by using formative assessment. Formative assessments will be based on take home assignments and participation during the lectures that contribute in **30%** of the total evaluation of each unit.

Summative Assessment

A summative assessment is the traditional exams or finals.

Learner will discover the end-of-unit Multiple Choice Questions Final Test that **IFTC** provided in this category of evaluations. Summative evaluations record the grade of the final **MCQ** test which contributes in **60%** of the total evaluation of each unit.

MCQs will be situational, case based and articulated for critical thinking that covers all the learning outcomes of each unit.

IFTC uses a grade scale from **0**, the lowest grade to **10**, the highest grade according to the official grading scale used in Spain.

UCAM Grade	ECTS Grade Points	Remark
9.0-10	4	Excellent – outstanding performance with only minor errors
7.0-8.9	3.7	Good – above the average standard but with some errors
5.0-6.9	2.5	Pass – fair but with significant shortcomings
0-4.9	0	Fail - retake credits

Description of Assignment Grading Criteria	Marks
<p>Final MCQs Exam</p> <p>Learner is required to answer the final Multiple Choice case based 60 questions after the end of each unit</p>	<p>60%</p>
<p>Take Home Assignments</p> <p>Each learner is required to provide three take home assignments during the course where each assignment will ensure the understanding of each learning objective in the course</p> <p>The Purpose of the assignments is to ensure the participation of the learners and their understanding of the course LOs so learners can be prepared for the final exam.</p>	<p>30%</p>
<p>Attendance</p> <p>It is evident that the student has attended the live or the recorded lectures</p>	<p>10%</p>
<p>Total Evaluation</p>	<p>100%</p>

Failure and Retakes

- In Case of Failure in one to four units, the learner is allowed to retake the unit's final test only one time
- In Case of Failure in more than four units , the learner shall retake the whole program

Nature of the Master's Degree in Continuing Education

At UCAM Catholic University of Murcia

This programme is different from a traditional research-based master's degree. Its primary focus is on professional and applied development, with an emphasis on:

- Acquiring new professional skills
- Practical application of concepts in the workplace
- Expanding professional competencies within real-world contexts

Who Is This Programme Suitable For?

This type of programme is particularly well suited to individuals who:

- Are already working in a specific field and wish to enhance their professional skills
- Seek career advancement or the expansion of their professional expertise
- Prefer applied, practice-oriented education rather than a strong focus on academic research
- Aim to stay continuously updated with the latest professional trends and practices

Academic Accreditation

All master's programmes offered by UCAM, including Continuing Education master's programmes, are officially awarded master's degrees granted by the University as part of accredited postgraduate programmes in Spain, and are recognized by the relevant Spanish Ministry of Higher Education (as applicable).

LEAD YOUR FUTURE

UCAM Catholic University of Murcia

Empowering your professional growth through excellence in education, values and research to lead the global future.
